Description of the Program	<p>The App Development Competition was organized by the Department of Electronics and Communication Engineering under the Electronics Club in association with IETE as part of the <i>Echo of ECE</i> event. Seventeen Batches have Participated in this event showcasing various themes. The competition aimed to inspire students to design and develop innovative mobile or web applications that address real-world challenges. Participants demonstrated their creativity, technical knowledge, and problem-solving abilities through interactive app designs and functional prototypes. The event provided an excellent platform for students to enhance their coding, user interface design, and teamwork skills while exploring emerging app development tools and frameworks.</p> <p>Overall, the competition received enthusiastic participation from students, showcasing their innovation and technical proficiency. The apps were evaluated based on creativity, usability, design, and overall impact. This initiative not only nurtured a spirit of innovation among budding engineers but also encouraged them to think critically about technology-driven solutions for modern-day problems.</p>
